NAME

DevOps Engineer

Dynamic and results-driven DevOps engineer with two years of experience at Wipro, seeking to leverage my expertise in automation, continuous integration, and deployment to contribute to a forward-thinking organization's technology initiatives.

Profile Summary:

Experienced DevOps Engineer with 2+ years of expertise in CI/CD implementations, AWS services, Linux systems, Terraform, Jenkins, Docker, Ansible, and Kubernetes. Proficient in various phases of software development, from code compilation to deployment, environment management, and maintenance.

Skills:

- CI/CD Implementations
- AWS Cloud Services (IAM, VPC, EC2, S3, EBS, ELB, Elastic Beanstalk, ASG, SNS, Code Commit, Code Build, Code Deploy, Code Pipeline)
- Linux Operating Systems (Amazon Linux, Ubuntu, CentOS)
- Infrastructure as Code (Terraform)
- Jenkins Automation
- User Management and Permissions (Jenkins)
- S3 Bucket Management (Versioning, Cross Region Replication)
- Docker (Containers, Images, Volumes)
- Ansible (Configuration Management)
- Web Servers (Apache2, Nginx)
- Database (RDS)
- Kubernetes (K8s) - Installation, Configuration, Pod, Service, Deployment Management

Professional Experience:

- Led CI/CD implementations, optimising code compilation, deployment, and maintenance processes.
- Managed AWS services including IAM, VPC, EC2, S3, EBS, ELB, Elastic Beanstalk, ASG, SNS, Code Commit, Code Build, Code Deploy, and Code Pipeline.
- Maintained and troubleshooted Linux systems (Amazon Linux, Ubuntu, CentOS).
- Spearheaded Infrastructure as Code (Terraform) for resource provisioning and configuration.
- Automated application deployment lifecycles using Jenkins.
- Customised user permissions and job access in Jenkins.
- Implemented S3 Bucket best practices, enabling versioning and cross-region replication.
- Proficient in Docker for container and image management.
- Utilised Ansible for configuration management, applying setup, ad-hoc commands, playbooks, and handlers.
- Managed web servers (Apache2, Nginx) and databases (RDS).
- Successfully installed and configured Kubernetes (K8s) clusters, managing pods, services, and deployments effectively.

Personal Details:

Date of Birth:

Gender : Female

Father's Name :

Martals Status :

Address :

Certifications:

- Achieved 6 IBM badges on DataStage.
- Completed a value added certification course on "VLSI training on industry perspectives organized by ELITE VLSI DESIGN.
- Python Programming for Placements Course by EDYST
- GCP certifications offered by UDEMY.

Achivements and Honors:

- Achieved first prize in Painting Competitions.
- Sports: Participated in zonal level competitions and Achieved first prize in KHO-KHO organized by APUSMA, Andhra Pradesh.

Strengths :

- Team Player
- Resilience
- Agile to learn modern technologies.
- Communication

Interests and Activities:

- Interested in Dance and Sports.
- Enjoy Travelling and Gardening.
- Interested in Community service.
